3 Call to Order

4 Remarks

Faculty Senate Chairperson (Dr. Brown)
Staff Council Chairperson (Ms. Phillips)
Student Government Association President (Mr. Smith)
Vice President for Development and CEO of the ISU Foundation (Mr. Carpenter)
President of the University (Dr. Bradley)
President of the ISU Board of Trustees (Mr. Campbell)

REPORT OF THE FACULY SENATE CHAIRPERSON (Dr. Brown)

I would like to thank the Board for reaching out to the Faculty Senate last year and making every effort to get to know our faculty leaders. The Senators and Officers were very appreciative of your time and interest and look forward to continuing to establish relationships and connections that will only enhance shared governance at Indiana State.

The coming year will have many changes as we say goodbye to President Bradley and welcome a new Preisident. Iam pleased to be working with you over the coming year.

REPORT OF THE STAFF COUNCIL CHAIRPERSON (Ms. Phillips)

In May we wrapped up the year with our annual meeting where we recognized our current and future members of Staff Council. The recipients of the Sycamore Staff Award and the Debbie Nelson Staff Council Spirit awards were also recognized. This year there were 9 nominees for the Sycamore Staff Award. This award recognizes a staff member who contributes to the overall mission and success of Indiana State University through their attitude, service, and engagement. Nancy Hall from the Deans Office of the College of Arts and Sciences was selected as the recipient by the members of Staff Council. The Debbie Nelson Staff Council Spirit Award recognizes a Staff Council representative who shows great dedication to serving his or her fellow staff through committee work, leadership roles, or general membership. This year's recipient was Susan Crist from the Department of Applied Health Sciences.

As one year has wound down we have already started planning for the next one. This year we have 10 new members that I would like to welcome to Staff Council: Abby Wright, Angela Napier, Melissa Chase, Tiffany Cherry, Karen James, Seth Porter, Sarah Froderman, Michelle Lewis, Todd LaComba, and Chad Clark.

The remaining members of the Executive Committee have been appointed. They are Audre Brickey – Communications Officer, Melissa Chase – Grievance Liaison, Martin Collins – Elections Coordinator, and Roxanne Torrance – Parliamentarian. The Executive Committee has appointed members to the Council standing committees, started planning goals and objectives for the upcoming year, and planning our Staff Council Retreat that will be held in July. The standing committees will begin monthly meetings soon to appoint their officers and plan goals for the next year.

We will be continuing our commitment to community service and I will be introducing some new goals and challenges that if met by the members of Staff Council, they will be rewarded as I will serve some kind of "punishment". So be on the lookout as I am pretty sure I will be walking around with pink hair or wearing a Cardinals shirt at some point this year. I am looking forward to this new challenge and to working with the amazing group of people that are on Staff Council.

REPORT OF THE PRESIDENT OF THE STUDENT GOVERNMENT ASSOCIATION (Mr. Smith)

Tanner Smith was not present as he was out of town at an internship with Rolls Royce.

REPORT OF THE VICE PRESIDENT DEVELOPMENT AND CEO OF THE ISU FOUNDATION (Mr. Carpenter)

We are looking forward to tonight and we are excited to honor our donors, alumni and friends at our March On! event.

State of the Division of Development

- We still have two Development Officer positions we need to fill and one with Finance.
- We will be rolling out a 2018 Action Plan before Homecoming.
- We have a positive FY'17 ending budget. FY'18 presents some major financial issues. We will all need to work together to overcome them.
- We are working with our fellow ISU staff members, Santhana Naidu and Kim Kuntz and our Marketing & Communication Department. Santhana is working on our "elevator speech" which will be available come our next meeting at Homecoming. Their department also has a contractual relationship with a marketing firm called Mind Power, Inc. Two of their staff are meeting with four of our alumni (Mike Alley, Christie Hill, Larry and Buffy Boulet) to find out why our donors give back to ISU and their experience with ISU. Outcomes will be discussed over the next few months.
- We have two new board members, Paul Chaney, '88, from Madison, Alabama and Jay McHargue, '80 from Sarasota, Florida. They are a welcome sight to help us reach our goals.
- The President's Society tailgate event will be on August 31st at Memorial Stadium – VIP tent. ISU football has promised us a victory!

I am part of Dan and Cheri's leaving transition team. There will be plenty of celebratory events but the most important one will be from now until next January. The biggest is a Gala event on October 20th, the day before Homecoming. The event will be held at Hulman Center.

Lastly, for some good news, we recently received an unrestricted trust gift from JoAnna and John Hock for \$92,752.25. Both are deceased.

REPORT OF THE UNIVERSITY PRESIDENT (Dr. Bradley)

Good afternoon. I would like to start my report by thanking trustees **Haley Gravely and Bob Baesler** for their dedicated service. We wish Haley well as she heads off to Madagascar or some other destination assigned by the Peace Corps. It will be exciting to see what she accomplishes in the future, and I know she will make her alma mater proud.

Bob is completing his second term as one of our alumni trustees. He has been an excellent leader, serving in numerous roles including as chair of the board. As a local trustee, Bob has also represented the Board at countless university events for

which we are all extremely grateful. Cheri and I look forward to continuing our friendship and to see Bob and Julie at many university and community events.

I would also like to congratulate **Trustees Ed Pease and Jeff Taylor** on being reappointed to the Board by Governor Eric Holcomb. We appreciate your continued service and leadership.

Gov. Holcomb has also confirmed the appointment of **Cynthia Powers** of Valparaiso as our new alumni trustee and selected **Andrew Case** of Columbia City, a junior majoring in communication, as our student trustee. Their terms begin July 1.

Greg Goode, our executive director of government relations, has been appointed to the Midwestern Higher Education Commission by Gov. Holcomb. The commission is a multi-state entity designed to provide greater higher education opportunities and service in the Midwest. I know the commission will benefit greatly from Greg's vast understanding of the issues facing higher education today. Congratulations, Greg.

Several searches have wrapped up recently, and a couple of our new leaders are here with us today. I would like to call upon **Provost Mike Licari** to introduce the new Dean of the Bayh College of Education.

Provost Licari introduced Janet Buckenmeyer, new Dean of the Bayh College of Education.

Thank you, Mike and welcome Janet.

Director of Athletics **Sherard Clinkscales** is also here to introduce our new softball coach.

Sherard Clinkscales introduced Mike Perniciaro, the new head softball coach.

Thank you Sherard and welcome Mike.

Two items of major importance on your agenda today are the tuition and fees for the next two years and the University operating budgets for 2017-2018. The University leadership, including faculty, staff and students, has worked diligently to maintain quality while controlling costs. This budget reflects a reallocation of \$1 million and a modest tuition increase which would have been higher if not for the reallocation efforts. I appreciate everyone's willingness to work together to increase our efficiency and continue to provide excellent service to our students.

Increased enrollment continues to be a priority. President Bradley then shared an enrollment update through a PowerPoint presentation.

Thank you.

REPORT OF THE BOARD CHAIRPERSON (Mr. Campbell)

I would like to thank Bob Baesler and Haley Gravely for their contributions to the board, Bob for the last eight years and Haley for the last two. We will recognize them later in the meeting. Haley has been traveling every national park out west and she flew back from Seattle for her last meeting.

I was walking around campus yesterday and ran into a group of students visiting ISU. I spoke with the students and who were very excited to be at ISU, this was very refreshing.

We are in the process of a Presidential Search and an upcoming Presidential Transition.

I would like to ask Jeff Taylor to report on the search committee.

Trustee Taylor: Thank you Dave. The committee is on schedule, but our work has only just begun. Later in the agenda we will approve the job expectations for the new President. This involved a lot of listening sessions and pulling together the search committee and getting their input, all very positive activity. I could not be happier than where we are now. With that said, all the hard work is in front of us and the search process will begin tomorrow. We will recruit hard and accept applications through the end of August. I could not be more optimistic about the process so far, but most of it is in front of us and not behind us.

Trustee Campbell: Thank you Jeff for your work and the work of the committee.

We also have a transition team with Co-chairs Nancy Rogers and Ed Pease. Would you like to report on the transition team?

Trustee Pease: Thank you Dave. We have a great transition team, we all know this University and get really excited about it, but this reinforces that there are some really talented people. We have two roles, one is to coordinate and appropriately celebrate the work of Dan & Cheri Bradley and all they have done for the University. Those of you wonder how we can add anything else into an academic calendar, we are trying to be very sensitive to that while still planning the things that need to be done. Teresa Exline is providing incredible support to the committee both contextually and historically. Our second role is to put together a formal plan to help the new President be successful. What we can we do to help with the transition? Moving forward with the progress that has been accomplished in the past several years and getting them to meet the right people, in front of the right organizations and learning the campus. We are still in the first stages but have done a lot of work.

5 New Business Items

5a Approval of the Minutes of the May 12, 2017 Meeting and Certification of Executive Session

The Indiana State University Board of Trustees met in Executive Session at 11:00 a.m. on Friday, May 12, 2017 in the State Room, Tirey Hall.

5b2 Operating Budgets, 2017-18

Presented below are balanced operating budgets based upon estimates of tuition revenue, State appropriations, and other available sources for the fiscal year 2017-18. It is recommended the President of Indiana State University be further authorized to establish salaries and wages for the 2017-18 fiscal year within the capabilities of budgeted resources.

Recommendation: Approval of the following operating budgets for the 2017-18 fiscal year and authorization of the President of Indiana State University to establish salaries and wages within the capabilities of budgeted resources.

Mr. Taylor reported that the Finance Committee unanimously recommends the approval of the item as presented. The board voted to approve the item as presented.

**INDIANA STATE UNIVERSITY
2017-18 Budgets**

The General Fund, Student Services, Auxiliary and Other Operating Units, and Line-Item summary budgets for 2017-18 are described below along with the related key planning points as discussed with the Board of Trustees Finance Committee on May 12, 2017.

GENERAL FUND BUDGET

Revenues

Revenue projected for the 2017-18 General Fund budget totals \$189,300,000, as compared to \$175,800,000 in 2016-17. The change in revenue comes primarily from the addition of tuition revenue dedicated for academic facility debt service reflected in prior years as a deduction from tuition revenue, a general student fee increase for resident and non-resident students, an increase of \$173,644 from Residential Life for reimbursement of utility costs, and other miscellaneous revenue adjustments including \$585,000 from the Indiana State University Foundation to partially offset costs of Development, Alumni, and Foundation Operations staff.

The operating appropriation decreased by \$774,754 from the 2016-17 level. The 2017 Indiana General Assembly appropriated an additional \$2,350,000 dedicated to Student Success Initiatives. Budgeted tuition for 2017-18 assumes an average of 100% of the undergraduate and graduate full-time equivalent enrollment of the previous two fall semesters. The increase in budgeted tuition is inclusive of a 1.94% tuition and mandatory fee increase (\$2,066,737) and the reclassification of prior year tuition pledged for academic facility debt (\$10,009,889) as described below under Academic Debt Service. Overall, student tuition represents 55.7% of the total general fund budget (compared to 34.4% for state operating appropriations).

To meet the priorities and commitments reflected in the budget, reallocations (reductions) were required as a part of the 2017-18 budget planning process. A total of \$1,006,817 was reallocated from 2016-17 base budgets to fund increases in compensation and other priority budget items.

The state maintained the same level of support for Degree Link, a separate line item appropriation, as during the 2016-17 year of \$446,438. The appropriation is accounted for in a separate cost center budget to support the delivery of Indiana State University baccalaureate degree programs at Ivy Tech Community College and Vincennes University locations.

Expenditures

I. Compensation

The 2017-18 operating budget contains a projected one and one quarter percent (1.25%) increase pool for salary adjustments plus amounts set aside for faculty and staff target salary programs. Criteria for any salary adjustments will be determined once enrollment numbers are known for the Fall 2017 semester and an assessment of overall budgetary conditions has been made. Student wage departmental budgets were also increased by one and one quarter percent (1.25%) overall.

Fringe benefit budgets allocated to each division of the University are annually realigned to more closely reflect actual expenditure patterns. The University provides eligible employees with a full benefit package which includes health coverage (medical, Rx, dental), retirement contributions, life insurance, and long-term disability.

II. Departmental Supplies and Expense

Adjustments to the supplies/expense budgets and repair/maintenance lines include various realignments within departments and divisions of the University to more accurately reflect appropriate budgetary classifications. Other committed expense line is increased by \$100,000 to offset increases in property/casualty/liability insurance.

In October 2016 the University and Indiana State University Foundation signed a new Memorandum of Understanding (MOU) that transferred all Development, Alumni, and Foundation Operations staff to the University. To offset the cost of assuming related salary and fringe benefits, the University no longer remits to the Foundation a fee to provide these services. In prior years, \$1.9 million of fee for service was budgeted under Supplies and Related Expense. For the 2017-18 year this amount has been transferred to salaries and wages and fringe benefit lines.

III. Equipment and Other Capital

A fund for capital improvements of \$4,300,000 is maintained as a part of the 2017-18 budget. The adopted State budget for the 2017-19 biennia provides approximately \$1.4 million of repair and rehabilitation funding for 2017-18 with the expectation that institutions provide additional resources as a part of their respective budgets. These funds will be used to address deferred maintenance and renewal needs of academic/administrative facilities.

IV. Student Scholarships

The recommended student scholarship and fee remission budget for 2017-18 totals \$13,664,145 (or 7.2% of the total general fund operating budget). This amount is inclusive of a two percent increase from the 2016-17 level.

The scholarship and fee remission budget consists of two components. The major portion (\$13,464,145) will be awarded directly to students through such programs as the President's Scholars and various other academic and need based scholarships as well as institutional fee remissions for undergraduate and graduate students. The second portion (\$200,000) of the budget accounts for matching funds needed for various student assistance programs.

An additional component of Student Scholarships is the laptop scholarship program for incoming freshman and transfer students with a minimum 3.0 G.P.A. Base funding of \$1,415,000 is provided in a separate student aid allocation.

V. Academic Debt Service

The State of Indiana provides a separate appropriation (known as *fee replacement*) to offset the principal and interest on student fee bonds used to finance academic facility projects authorized by the General Assembly, reviewed by the Commission for Higher Education, and approved by the State Budget Committee. Institutions are required to issue debt associated with these facilities and pledge student tuition dollars as repayment. The State then replaces the pledged tuition through a *fee replacement* or debt service appropriation.

In prior year budgets, the student tuition pledge for academic debt repayment has been reflected as a net deduction from student tuition. For the 2017-18 budget year the payment of academic debt service has been included as a direct expense line in the General Fund budget with the offset a corresponding increase in the student tuition line to allow for a more transparent process in budgeting tuition. This is a pass-thru budget item.

VI. Reserves

An allocation of \$1,576,527 was set aside as a part of the 2016-17 budget to fund high priority strategic initiatives. During the past fiscal year \$327,882 of this amount was allocated to support base budget needs of strategic importance. An additional \$304,163 has been added to the reserve pool for strategic initiatives as a part of the 2017-18 budget.

A second reserve pool of three percent (3%) of the previous year budget is set aside to absorb any revenue shortfalls. For the 2017-18 year, this amounts to \$5,274,000.

As previously mentioned, for the 2017-19 biennia, the State of Indiana is allocating \$2,350,000 each year in a special appropriation for Student Success Initiatives to assist Indiana State in the continuation and expansion of degree completion efforts. Of this amount, \$1,425,000 is set aside as a reserve to support ongoing initiatives.

STUDENT SERVICES BUDGET

The Student Services budget allocates a portion of student tuition to operating units within the Designated and Auxiliary fund groups to support student activities and related programs. These funds are primarily used to offset increased operating costs for those units supported by the Student Services budget. Included in the Student Services budget for 2017-18 is an increase of \$558,308 in the allocation of student tuition to support student activities and related programs and an increase of \$26,775 in Student Recreation Center fees.

AUXILIARY AND OTHER OPERATIONS

Auxiliaries are operated as independent units supporting students and the University in various capacities. Residential Life is the largest University auxiliary unit. Each of the Auxiliary units generates outside revenues to support the individual operating budget of each unit. The financial planning components for the General Fund Operating budget were also used in the preparation of Auxiliary budgets, including expected reallocation targets for those auxiliary and designated budgets that receive student tuition support. Overall, a total of \$365,651 of reallocations were identified and are reflected as a part of the 2017-18 budgets for these operations.

As in prior fiscal years, a reserve pool for capital improvements is maintained as a part of the Residential Life budget. This reserve pool will be allocated to planned future improvements for student housing and dining facilities.

LINE-ITEM APPROPRIATIONS

As stated earlier, the state maintained the same level of line-item appropriation support for the Degree Link program as in the 2016-17 year. The total appropriation for 2017-18 remains at \$446,438.

Other line-item appropriations allocated to the University for 2017-18 include; \$204,000 for the ISU Nursing Program, \$180,750 for Dual Credit programs (based on State formula), and \$600,000 for the Indiana Principal Leadership Institute operated by the Bayh College of Education.

5c Modification to University Handbook

5c1 Modification of Policy 655.3 Open (Access to Public) Records Law

Rationale: As part of an effort to streamline university processes and to ensure that the University Handbook reflects statutory guidance, the administration proposes that Policy 655.3 Open (Access to Public) Records Law be modified to identify the Office of the General Counsel as the primary responsible department for the receipt of requests for access to public records and to provide that lists of ISU employees, students, and others attending university events will not be disclosed if a list will be used for commercial or political purposes.

~~655.3 Open (Access to Public) Records Law~~ Access to Public Records-

Formatted: Font: Perpetua

The open records law of the State of Indiana requires that the public be afforded a right of access to public records. That right includes the inspection and copying of documents and records of state agencies and of public universities, so long as the request is made with reasonable particularity.

655.3.1 Reasonable Particularity. The legislation does not authorize a general examination or exploration of the files of any agency of the State, nor does it require the state agency to compose documents which do not already exist.

655.3.2 Specific Exceptions. In enacting the statute, the General Assembly has specifically excepted certain kinds of documents and records. Such documents include, but are not limited to, all records which may be classified by state or federal law or public agency or Supreme Court rules as confidential, those which are considered trade secrets or contain personal financial information, and those which are the instruments and results of research conducted under the auspices of the University, grade transcripts, license examinations, and patient medical records. Documents of like nature are confidential and are, therefore, not subject to the Indiana law on open records.

655.3.3 Discretionary Exceptions. There are additional categories of records which Indiana law excepts, and the exercise of the exceptions is at the discretion of the public agency. Exceptions include, but are not limited to,

law enforcement investigation records, certain kinds of legal work, test questions and their results, most personnel records, computer programs, codes, filing systems and software, records that are intra-agency or inter-agency advisory or deliberative material which contain opinions or information designed to serve as the basis for decision-making, diaries, journals or other personal notes, donor records, and library records. The statute is not designed or meant to make every document or record of the University on any and every subject available at any time to any person who makes a request.

655.3.4 Appropriate Department to Respond. The Office of the General Counsel is responsible for establishing a process for the submission and review of requests for access to public records and will work with appropriate ISU departments as may be needed to coordinate a response. Each request to review a University document or record presented under the prescribed stipulations and conditions of the public records law will be evaluated on its own merits. To facilitate the evaluation, the University will officially receive and respond to requests for review of or access to public records only in the Public Affairs Office for requests for information from the media, and in the University Legal Affairs Office for all other requests. All administrative or academic offices of the University will be instructed to refer all communications and requests to the appropriate office.

655.3.5 Standard of Review. Under most conditions and circumstances, and in the majority of cases, documents and records will be made available upon request. Only in those instances in which the University is legally bound to maintain the confidentiality of records or in which it is authorized by law to make an exception will the University deny a request for access or review of a document or record. The exception and the grounds on which the exception is made will be expressed by the Public Affairs Office or the University Legal Affairs Office, as appropriate.

655.3.6 Lists of Names and Addresses. Lists of employees, students, or persons attending conferences, meetings or activities sponsored by the University will not be disclosed to any individual or entity if such person or entity intends to use the information for commercial or political purposes.

655.3.6.1 Commercial Purpose. Commercial purpose includes, but is not limited to, the sale, advertisement, or solicitation for the purchase of merchandise, goods, or services, or the sale, loan, donation, or otherwise delivery of the requested information obtained to any other person for these purposes.

Recommendation: Approve the proposed modifications to Policy 655.3, including renaming the policy 655.3 Access to Public Records.

On a motion by Ms. Bell, seconded by Mrs. Smith, the recommendation was approved.

5d Presidential Position Profile

The position profile for the next president of Indiana State University has been developed by the Presidential Search Committee incorporating feedback received from the Stakeholders' Survey and campus wide listening sessions. Once approved, the profile will be utilized to advertise the position of President of Indiana State University nationally and to recruit candidates.

RECOMMENDATION: Approval of the position profile for advertising and recruiting candidates for President of Indiana State University.

President

Position Profile

Indiana State University invites nominations and applications in its search for a visionary President who will continue to enhance the institution's commitment to academic excellence, student success, community engagement, and shared governance. The President reports to the University's Board of Trustees.

The University

Founded in 1865, Indiana State University (ISU) is a comprehensive, state-assisted public institution offering degrees through the doctoral level. Classified as a community engaged institution by the Carnegie Foundation, ISU has been named to the President's Higher Education Honor Roll for Community Service each year since its creation. The University was ranked first in the nation among national universities for service by the Washington Monthly in 2015 and has been in the top three institutions in the country for the past five years in hours of community service provided by its students. The Princeton Review has recognized ISU as one of the "Best in the Midwest" for 13 years in a row.

The University offers more than 80 undergraduate majors within the Colleges of Arts and Sciences; Business; Education; Health and Human Services; and Technology. The College of Graduate and Professional Studies offers more than 90 graduate programs in conjunction with the University's academic colleges. Minority students constitute 25% of 2016-2017 enrollees, one of the most diverse student populations in Indiana. Enrollment has grown by more than 30 percent in the past eight years, reaching historic levels in fall 2015 with more than 13,500 students. While the majority of students are from Indiana, the University also attracts students from throughout the United States and more than 70 countries. Indiana State has a long tradition of serving underrepresented populations; more than half of freshmen are Pell-eligible, and a large percentage of enrollees are first-generation college students. In addition, the University has the largest percentage of 21st Century Scholars, Indiana's scholarship program for students from low-income households.

The ISU Sycamores have nine women's teams and six men's teams competing in intercollegiate athletics at the NCAA Division I level. The University has been a member of the Missouri Valley Conference since 1977.

Strategic Plans

In fall 2009, the University launched a strategic plan, [The Pathway to Success](#). Guided by this plan, ISU has:

- Had unprecedented growth in enrollment;
- Developed new degree programs in high demand fields such as health care, unmanned systems and genetic counseling;
- Greatly expanded experiential learning opportunities for students;
- Nearly completed a 10-year plan to upgrade student housing;
- Been named the number one national university in the U.S. for community service;
- Successfully concluded its first comprehensive fundraising campaign; and
- Made progress in diversifying its faculty and staff.

Seven years later, a new strategic plan, [There's More to Blue](#), was launched. Building upon the success achieved by the previous plan, the new plan sets aggressive goals in improving student success, continuing enrollment growth, incorporating career-readiness into the curriculum, ensuring the impact of the university's commitment to community service, creating

distinctive programs and experiences, utilizing resources effectively to maintain affordability, increasing revenue streams, and attracting and retaining great employees. The plan emphasizes building an environment of inclusive excellence.

Budget

Indiana State has an annual operating budget of approximately \$175.8 million. The two largest sources of revenue are student tuition (53.1% of total revenue) and state appropriations (43.2% of total revenue).

The state operating appropriation is comprised of two main components: base funding and performance funding. Base funding reflects historical changes in student enrollment (adjusted for inflation) and is the largest amount of state-provided funding. A small portion of base funding is allocated by use of performance formulas that reward various outcome measures such as overall degree production and on-time completion.

The State of Indiana also provides funding for major renovation or new construction of academic facilities through the use of debt service appropriations or cash. Since 2008, ISU has received \$156.3 million of capital funding, including \$31 million of cash funding in addition to annual allocations of repair and replacement dollars for the upkeep of academic facilities.

University Development

In September 2016, the University's Board of Trustees and the [ISU Foundation](#) announced a restructuring that allows the Foundation to retain its 501(c)(3) status while operating more closely with the University. The Foundation had operated as a separate entity since 2006 and remains a separate institutionally related foundation, but all employees of the Foundation have now become University employees. The former President of the Foundation now serves as a Vice President for University Development reporting directly to the President of ISU. The Vice President also has responsibilities as CEO of the Foundation. The [Foundation Board of Directors](#) will continue to provide oversight and guidance to the fundraising staff and assist with the cultivation and stewardship of private donations.

The University has averaged more than \$9 million in cash gifts and exceeded 5,600 donors over the last four years. Indiana State's last comprehensive fundraising campaign ended in 2011, surpassing the University's goal of \$85 million. The campaign received gifts from more than 18,000 donors and created 250 new funds and scholarships, including doubling the number of named Presidential Scholarships (the university's most prestigious financial award for incoming students). The ISU Foundation has an endowment of approximately \$53 million.

Campus

The University's 150-acre beautifully landscaped campus sits in the heart of downtown Terre Haute and is designated a Tree Campus USA. More than \$300 million in major construction projects have been completed during President Dan Bradley's tenure. Several major projects have been approved and will be completed in the coming years, including:

- A \$64-million addition and renovation of the Health and Human Services Building;
- A \$20.5-million renovation of Rhoads Hall; and
- A \$15-million renovation of the Fine Arts and Commerce Building.

The [campus master plan](#) was updated in 2016 and includes renovation of academic classroom facilities; completion of the Sycamore Towers renovation; creation of a signature entryway to campus; further development of the University's footprint (without losing its compact campus form and walkable environment); improvements to athletic competition, practice and training facilities; and continued support of city and county efforts to redevelop adjacent neighborhoods, the riverfront, and the central business district.

Condit House

When the Indiana General Assembly chartered the Indiana State Normal School in 1865, Condit House was already five years old. During the subsequent expansion and development of the school into a college and university, the campus eventually grew to surround this distinctive landmark.

At the request of Dr. Alan Carson Rankin, the seventh president of ISU, the Board of Trustees authorized the restoration of Condit House for use as the presidential residence. Restoration and expansion of the home was completed in 1967. President Rankin and his successor, President Richard G. Landini, lived in the home throughout their presidencies. In 1992, Condit House became the Office of the President. In 2008, significant renovations were completed to restore it for use as the president's residence.

The Community

The seat of Vigo County, Terre Haute has approximately 60,000 residents. The west-central Indiana community serves as the retail, healthcare, manufacturing, service and cultural hub for 16 Indiana and Illinois counties in the Wabash Valley. Terre Haute is home to four colleges (Rose-Hulman Institute of Technology, Saint-Mary-of-the-Woods College, Ivy Tech Community College and Harrison College) in addition to ISU.

In the past decade, there has been a resurgence of the downtown due to strong working relationships among the University, the City of Terre Haute, the Terre Haute Economic Development Corporation, the Chamber of Commerce and other public and private entities. Two new hotels have been built and an arts corridor has been developed featuring a growing collection of public art and a number of local museums and boutiques. Indiana State has also partnered with a third-party developer to build apartments for upperclassmen in the heart of downtown. Recently, the ISU Foundation collaborated with Barnes and Noble to build a shared facility that includes the University's bookstore and offices for the Foundation and the ISU Alumni Association.

The Wabash River Development and Beautification Board has created a strategic plan called Riverscape which utilizes Terre Haute's riverfront to spur economic development and provide a landmark destination for tourists. The project includes the development of the Wabashiki Fish and Wildlife Area on the west bank of the river and the development of ISU's Gibson Track and Field on the east side. In early 2017, Core Redevelopment began work on a \$23-million repurposing of a former manufacturing plant adjacent to the track complex to create 165 loft-style, market-rate apartments.

The University is also working with the City of Terre Haute, the Vigo County Commissioners, and the Terre Haute Convention and Visitors Bureau to renovate and add convention meeting space to Hulman Center. The Indiana General Assembly has approved \$37.5 million in funding for this \$75-million project.

Board of Trustees

The President reports directly to ISU's [Board of Trustees](#), which has nine members appointed by the Governor. Two of the nine are nominated by the Indiana State University Alumni Association, and six are at-large positions; a student representative is appointed from nominations submitted by a Student Government Association search and screen committee. All appointments are for a period of four years except for the student trustee, who serves two years. Terms begin on July 1 of the year the appointment is effective. The Governor fills Board vacancies by appointment for unexpired terms.

Indiana Commission for Higher Education

The [Indiana Commission for Higher Education](#) is a fourteen-member coordinating agency that works closely with Indiana's public and independent colleges to:

- Define the educational missions of public colleges and universities;
- Plan and coordinate Indiana's state-supported system of post-high school education, taking into account the plans and interests of independent colleges and universities;
- Review both operating budget and capital budget appropriation requests from public institutions;
- Approve or deny the establishment of any new branches, campuses, extension centers, colleges or schools associated with public institutions;
- Approve or deny for public institutions the offering of any additional associate, baccalaureate or graduate degree or certificate program of two semesters or more in duration;
- Review all programs of public institutions and make recommendations to the governing board of the institution, the Governor, and the General Assembly concerning the funding and disposition of these programs; and,
- Distribute student financial aid from state aid programs.

The Governor appoints 12 members, nine representing a Congressional District and three at-large members, to serve terms of four years. The Governor also appoints a student and a faculty representative, both of whom serve two-year terms. Indiana State Professor John Conant currently serves on the Commission as the faculty representative.

Opportunities, Challenges, and Qualifications

Responsibilities of the next President include, but are not limited to:

- Embracing and supporting the public mission of the University to provide access and opportunity for all students to receive a high quality educational experience, resulting in academically prepared, career-ready, and socially aware graduates;
- Setting the strategic vision for the University and implementing a plan of action to achieve the goals of the institution;
- Communicating the vision and mission of the institution to a broad range of stakeholders;
- Supporting the University's emphasis on community engagement and utilizing partnerships with public and private entities to leverage resources that enhance the quality of life in Terre Haute and the Wabash Valley;
- Effectively working with the state legislature, donors, industry, community partners, and grant opportunities to maximize and diversify funding and resources to support the institution;
- Establishing a strategic enrollment plan that will lead to the effective recruitment and retention of a diverse student body;
- Continuing the institution's strong commitment to shared governance, maintaining a visible presence on campus, and consistently engaging in dialogue with faculty, staff, and students;
- Empowering and supporting leadership at all levels within the institution;
- Enhancing inclusivity on campus and maintaining the institution's strong commitment to embracing diversity, including efforts to recruit, retain and support diverse faculty, staff, and students;
- Supporting faculty to be successful in their roles as teachers, scholars, and university citizens;
- Enhancing the student experience, including in-classroom and extracurricular experiential learning opportunities and career readiness initiatives;
- Overseeing Division I intercollegiate athletics and ensuring institutional compliance with NCAA regulations; and
- Developing and managing international partnerships, which bring value to the institution.

The successful candidate should possess the following skills and qualifications:

- A strong commitment to the University's mission of being dedicated to teaching and the creation of knowledge while maintaining its longstanding commitment to inclusiveness, community and public service, and access to higher education;
- An earned terminal degree;
- A distinguished record of excellence in teaching, scholarship, and service meriting appointment at the rank of full professor;
- A deep understanding of the diversity of ISU's student body and a track record of initiatives that have positively impacted learning and outcomes for students coming from similar backgrounds;
- Experience fostering engagement between a university and its local communities;
- The ability to build relationships with external stakeholders and garner resources that will support the institution;
- Experience with strategic enrollment planning, including issues related to recruitment, retention, program evaluation at the undergraduate and graduate levels, and distance education;
- A genuine commitment to shared governance;
- Experience building high-performing leadership teams;
- A demonstrated record of support for diversity and enhancement of inclusivity on a college campus;
- Experience working with undergraduate and graduate programs;
- A strong history of supporting faculty excellence in teaching, scholarship, and service;
- Demonstrated accomplishments improving student success, experiential learning opportunities, and career readiness; and
- Experience building and maintaining international partnerships that align with and support an institution's mission.

Nomination and Application Process

The Search Committee will begin reviewing applications immediately and continue to accept applications and nominations until the position is filled. However, in order to assure the fullest consideration, candidates are encouraged to have complete applications submitted to the search firm assisting the University by August 30, 2017. Requested application materials include a letter of interest; curriculum vitae; and the names, telephone numbers, and e-mail addresses of at least five professional references. All applications, nominations, and inquiries will remain confidential. References will not be called until after the first screening of applications and then only after the applicant has given explicit permission. All application materials must be submitted electronically in Microsoft Word or PDF format.

5h Academic Calendar for 2018-19 and 2019-20

The proposed academic calendars for AY 2018-10 and 2019-20 have been developed with input from Academic Affairs, Admission, and Faculty Senate. The attached academic calendars continue a similar schedule to the previous 2 years with the exception of spring break. Faculty Senate proposed a change in date to attempt to coincide with Vigo County School Corporation spring break. Spring break has been moved to the 4th week of March.

Recommendation: Approve the academic calendars for AY 2018-10 and 2019-20

On a motion by Ms. Gravely, seconded by Mr. Taylor, the recommendation was approved.
