Section I.c Enrollment

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled.

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

Additional guidance on reporting race and ethnicity data.

Total number of students enrolled in 2015-16:	466
Unduplicated number of males enrolled in 2015-16:	193
Unduplicated number of females enrolled in 2015-16:	273

Section I.d Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2015-16.

Average number of clock hours of supervised clinical experience required prior to student teaching	178
Average number of clock hours required for student teaching	560
Average number of clock hours required for mentoring/induction support	0
Number of full-time equivalent faculty supervising clinical experience during this academic year	27
Number of adjunct faculty supervising clinical experience during this academic year (IHE and PreK-12 staff)	87
Number of students in supervised clinical experience during this academic year	456

Please provide any additional information about or descriptions of the supervised clinical experiences:

The number of students total in supervised clinical experiences may include some duplicates.

Section I.e Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2015-16. For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

Section I.f Program Completers

Provide the total number of teacher preparation program completers in each of the following academic years:

2015-16: 226

2014-15: 152

2013-14: 167

Section II Annual Goals - Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (S205(a)(1)(A)(ii), S206(a))

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in mathematics in each of three academic years.

Academic year 2015-16

Did your program prepare teachers in mathematics in 2015-16?

Yes

How many prospective teachers did your program plan to add in mathematics in 2015-16?

15

Did your program meet the goal for prospective teachers set in mathematics in 2015-16?

No

Description of strategies used to achieve goal, if applicable:

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Provide any additional comments, exceptions and explanations below:

Academic year 2016-17

Is your program preparing teachers in mathematics in 2016-17?

Yes

How many prospective teachers did your program plan to add in mathematics in 2016-17?

15

Provide any additional comments, exceptions and explanations below:

Our numbers in the mathematics teaching program are down significantly. This is due in large part to recent changes in Indiana State Law governing teacher salaries, working conditions, assessment.

Academic year 2017-18

Will your program prepare teachers in mathematics in 2017-18?

Yes

How many prospective teachers does your program plan to add in mathematics in 2017-18?

8

Provide any additional comments, exceptions and explanations below:

Our numbers in the mathematics teaching program are down significantly. This is due in large part to recent changes in Indiana State Law governing teacher salaries, working conditions, assessment.

Section II Annual Goals - Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency including mathematics, science, special education, and instruction of limited English proficient students. (**S205(a)(1)(A)(ii)**, **S206(a)**)

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in science in each of three academic years.

Yes

How many prospective teachers did your program plan to add in science in 2015-16?

6

Did your program meet the goal for prospective teachers set in science in 2015-16?

No

Description of strategies used to achieve goal, if applicable:

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

- Considering the small number of students in our program, we offered a new curriculum for those who only wish to pursue a middle school science licensure.
- Explicit degree audit when students complete 80 – 90 credit hours.

Provide any additional comments, exceptions and explanations below:

Academic year 2016-17**Is your program preparing teachers in science in 2016-17?**

Yes

How many prospective teachers did your program plan to add in science in 2016-17?

6

Provide any additional comments, exceptions and explanations below:

Due to heavy content course requirements, increasing our student population is a significant concern for our program. We will advertise our science education program in various ways to increase enrollment.

: Inform science majors and University College advisors about the Science Education program

: Support the Science Education student organization

: Invite science majors to an annual science education open house and seminars

: Encourage Science Education majors to attend the science teacher conference

- HASTI (Hoosier Association of Science Teachers, Inc) conference, IN

Academic year 2017-18**Will your program prepare teachers in science in 2017-18?**

Yes

How many prospective teachers does your program plan to add in science in 2017-18?

5

Provide any additional comments, exceptions and explanations below:

The increasing enrollment and retention rate is a significant concern for our program. We will advertise our science education program in various ways to increase student enrollment and support students to increase our retention rate.

: Invite science majors to an annual science education open house and seminars

: Provide Science Education seminars for majors every semester

: Encourage Science education majors to engage in various community service activities

: Support the Science Education student organization

: Encourage Science Education majors to attend the science teacher conference- HASTI (Hoosier Association of Science Teachers, Inc) conference, IN

: Offer a revised curriculum for the Earth Space Science major to reduce the heavy content course requirement. This new curriculum will allow students to complete their program in four years

: Offer a science education minor program. This minor is designed for Elementary Education or Secondary Education majors who want to add a middle school science licensure to their initial teaching licensure

Section II Annual Goals - Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency including mathematics, science, special education, and instruction of limited English proficient students. (**§205(a)(1)(A)(ii)**, **§206(a)**)

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in special education in each of three academic years.

Academic year 2015-16**Did your program prepare teachers in special education in 2015-16?**

Yes

How many prospective teachers did your program plan to add in special education in 2015-16?

45

Did your program meet the goal for prospective teachers set in special education in 2015-16?

No

Description of strategies used to achieve goal, if applicable:

Faculty members participate in university sponsored events such as "Teachers of Tomorrow" during which prospective high school teachers and their parents come to campus, interact with faculty, and take part in activities that demonstrate both teaching techniques (used by faculty) as well as a sampling of topics that are covered in our program.

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

During the 2014-2015 academic year, we began looking for ways to allow content majors to obtain licensure in special education. We felt that the benefits would be two-fold: we would increase the number of students in our program and make those students more marketable in the field of education. As a result, we have increased the number of prospective students entering the program. This continues to the current time.

Faculty members also meet personally with prospective students and their parents during campus visits.

Provide any additional comments, exceptions and explanations below:

This is the first year that minors—for both elementary and secondary majors have been offered. We are beginning to see increased numbers from both levels. We have also adapted current courses to meet the preparation needs of the prospective teachers. Additionally, we added a course in assessment as well as a course that becomes a part of a semester long program that provides students with more than 300 hours in the field.

Faculty members continue to meet with prospective students and their parents as noted above. We are now able to inform our guests that our program has a 100% pass rate on the state licensing exam for special education.

Academic year 2016-17**Is your program preparing teachers in special education in 2016-17?**

Yes

How many prospective teachers did your program plan to add in special education in 2016-17?

45

Provide any additional comments, exceptions and explanations below:

We now have a faculty member who travels to different high schools to recruit prospective "Teacher Leaders." As a part of her visit, she discusses our program and leaves literature for guidance counselors.

As we continue with "Teachers of Tomorrow" and meeting individual prospective students and their parents, we continue to share the benefits of extensive field experience as well as our pass rate for the state teaching license.

Academic year 2017-18**Will your program prepare teachers in special education in 2017-18?**

Yes

How many prospective teachers does your program plan to add in special education in 2017-18?

40

Provide any additional comments, exceptions and explanations below:**Section II Annual Goals - Instruction of Limited English Proficient Students**

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (**§205(a)(1)(A)(ii), §206(a)**)

Yes

How many prospective teachers did your program plan to add in instruction of limited English proficient students in 2016-17?

7

Provide any additional comments, exceptions and explanations below:

• We sent a flyer to all superintendents in the state of Indiana with information about the graduate TESL certificate, which can be used (along with appropriate testing to add the ENL license to an existing license. We expect growth using this path to licensure.

Academic year 2017-18

Will your program prepare teachers in instruction of limited English proficient students in 2017-18?

Yes

How many prospective teachers does your program plan to add in instruction of limited English proficient students in 2017-18?

10

Provide any additional comments, exceptions and explanations below:

We are encouraging students in teacher education programs to choose the ESL minor to add licensure to their existing licensure path.

Section II Assurances

Please certify that your institution is in compliance with the following assurances. (§205(a)(1)(A)(iii), §206(b)) Note: Be prepared to provide documentation and evidence for your responses, when requested, to support the following assurances.

Preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

Yes

Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

Yes

Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

Yes

Prospective general education teachers are prepared to provide instruction to students with disabilities.

Yes

Prospective general education teachers are prepared to provide instruction to limited English proficient students.

Yes

Prospective general education teachers are prepared to provide instruction to students from low-income families.

Yes

Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

Yes

Describe your institution's most successful strategies in meeting the assurances listed above:

As part of the TOTAL program, all Elementary and Special Education majors complete an extended field experience prior to student teaching. During this experience they 3 days a week, all day for most of the semester co-teaching in an elementary class. All placements for this FE are in low-income schools, and must complete a final report that in which student indicate how they would differentiate instruction for low income students. Overall, the district in which we place all pre-service teachers (P-12) for field experiences ranks at the top in the state for percentage of free and reduced lunch.

We have extended the pre-student field experience opportunities such that all Elementary/Special Education students spend over half of a semester full-time in a classroom co-teaching, and Secondary/All-Grade majors spend 5 weeks co-teaching a class every day.

To help teachers respond to LEAs, we actively place students in our Professional Development Schools.

The Behavioral Management course is required for all Elementary Education majors.

Section IV Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program.

Is your teacher preparation program currently approved or accredited?

Yes

If yes, please specify the organization(s) that approved or accredited your program:

NCATE

Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?

No

Section V Use of Technology

Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare teachers to:

- integrate technology effectively into curricula and instruction
Yes
- use technology effectively to collect data to improve teaching and learning
Yes
- use technology effectively to manage data to improve teaching and learning
Yes
- use technology effectively to analyze data to improve teaching and learning
Yes

Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Faculty model technology integration and pre-service teachers have an expectation to complete technology facilitated assignments, lesson plans, and unit plans.

All pre-service teachers are required to complete a culminating unit report that demonstrates their impact on P-12 student learning. As part of that report, students are required to collect, manage and analyze their student data to determine their impact on student learning and plan for next steps. All data are managed and analyzed through technology.

The concepts of UDL are taught to all pre-service teachers and they are expected to use these principles during all field experiences and student teaching and are evaluated on their ability to do so.

Section VI Teacher Training

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare general education teachers to:

- teach students with disabilities effectively
Yes
- participate as a member of individualized education program teams
Yes
- teach students who are limited English proficient effectively

Yes

Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

All of our pre-service teachers are required to complete activities during their field experiences and student teaching which involve them in working with IEP teams (as long as parents give permission). A required course for all majors gives an introduction to disabilities and how to differentiate instruction given different student abilities.

Secondary education majors receive preliminary instruction on how to work with limited English proficiency students and gain most experience/knowledge from the teachers in the field. Starting Fall 2010, an instructional module developed in cooperation with Language Education and an ENL instructor were added to the curriculum.

Does your program prepare special education teachers to:

- **teach students with disabilities effectively**
Yes
- **participate as a member of individualized education program teams**
Yes
- **teach students who are limited English proficient effectively**
Yes

Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

Our special education majors have classes and field experiences that work on effective teaching strategies and the role and function of IEP teams; they have the same emphasis on working with limited English proficiency students and the extended field work and student teaching that increases exposure to these students.

Section VII Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card. The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.
